About Famous Adventures

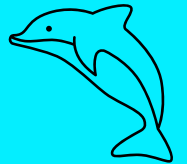

Famous Adventures provides outdoor adventures for children to promote kindness and responsibility through curiosity about our natural world. We are a day camp program that explores the Charleston Lowcountry in vans, each day heading somewhere different to play and adventure! Going into our 9th summer in 2024, we love continuing to connect with our campers, staff, and local partnering outfitters here in our community.

What does a day of camp look like?

Together, a Trip Leader and Assistant lead a group of 13 campers on daily outdoor adventures. Teams work independently to create an adventure for their campers.

Each day includes one outdoor activity, like surfing or a dolphin boat tour, and afternoons are flexible and unique to each group, including playgrounds, sweet treats, crafts, water games, and more.

What do staff love about camp?

Educators love a summer spent outside and the autonomy of working with their own small group. Students love that we are happy to talk about turning your role at camp into an internship or college credit. Outdoor guides enjoy getting to experience leading a wide range of nature-based activities. And everyone loves that every Friday is Water Park Friday!
